

Model: WCCM10
Wireless Car Charger Ver 2.1

Qi Certified

Certification program ensures this charger has passed rigorous tests to guarantee safety, compatibility and energy efficiency.

Compatibility

- iPhone 15 Series
- iPhone 14 Series
- iPhone 13 Series
- iPhone 12 Series
- iPhone 11 Series
- iPhone X/8/SE Series
- Samsung S23/22/21/20/10/9/8
- Samsung Note 20/10/9/8
- Google Pixel 7/6/5/4/3
- Xiaomi Mi 12/11/10/9
- Huawei P40/P30

Features

- Supplied with a vent mount or window/dash suction mount
- Supports 7.5W Apple wireless fast charging for iPhone 8 or later[#]
- Supports 10W wireless fast charging for compatible devices such as Samsung Galaxy Series and more[#]
- Supports 5W standard wireless charging for all Qi enabled devices
- No need to remove your protective case. Works with most cases up to 3mm thick
- LED indicator to show charging status
- Smart IC enables energy saving mode when device is fully charged
- Full safety protection for your devices with Qi certified temperature control, strict voltage regulation & short circuit protection
- Includes 1m micro USB cable to connect wireless charger to USB car charger (USB car charger not included)

* Check with device manufacturer for Qi wireless compatibility

When connected to a QC 2.0 or QC 3.0 car charger (not included)

Wireless Charging Cradle Operation

- Choose either the air vent mount or the window/dash suction mount and attach the accessory to the wireless charger by snapping the ball into place and tightening the screw
- Using the included micro USB cable, connect the wireless charger to a USB car charger (USB car charger not included)
- When connected to the USB charger, the red LED will be on for 3 seconds to indicate the wireless charger is powered on
- Place your Qi enabled wireless phone into the cradle
- Adjust the movable bottom phone bracket to suit the size of your phone by pressing the bottom button on the back of the cradle
- Close the cradle locking arms by pushing both sides together until they are securely holding your phone in place
- To remove your phone, press the top button on the back of the cradle to release the locking arms
- During charging, the green LED will be permanently on

Troubleshooting

- If your wireless charging does not work then please adjust the feet of the cradle upwards or downwards. The wireless charging coil in your phone needs to match the position of the wireless charging coil in the charger. Slide the feet up and down whilst the phone is sat in the cradle and the power is connected until your two coils line up and charging commences

Specifications

- Wireless Standard: WPC/Qi (v1.2.4)
- Input: DC 5V 2A or 9V 2A
- Output: 5W / 7.5W / 10W
- Working Frequency: 110 to 205KHz
- Charging Distance: 3 to 8mm
- Charging Efficiency: >72%
- Weight: 158g

Important Safety Instructions

- Only use original or reputable third party chargers and cables
- Do not get wet to avoid causing short circuit damage and leakage
- Do not use in extreme hot, humid or corrosive environments to avoid short circuit damage and leakage
- Do not place too close to magnetic strip or chip ID card to avoid magnetic failure
- Do not clean with harmful chemicals or detergents
- Misuse, dropping or excessive force may cause damage to the charging stand
